Casambi PWM from Ardit GmbH

You already know the PWM4 in a built-in housing or potted with IP65 protection. Recently we were able to present the PWM5, which you surely got to know in one way or another.

NEW: The PWM2 in a built-in housing!

Item no. 808834

The **PWM2** impresses with its small design (65 x 29 x 14 mm).

Comfortable controlling of 2 channel / tuneable-white light sources with your smartphone or tablet and the CASAMBI app.

Matching:

Item no. 800151

5m flexible LED strip with adjustable white tone.

Item number 800385

The **PWM4** should already be well-known, especially because of the easy controlling of LED strips via Casambi.

This device is freely configurable for up to 4 channels (color mixing or individual light sources).

Item number 808885

The same applies for the **PWM4 with IP65 protection**.

This device is ideally suited for outdoor usage.

Item number 808835

The Arditi **PWM5** dimmer has more than 190W and integrated lighting control for LED strips with single channel control, control for tuneable white, RGB, RGBW - and now in the Casambi world - RGB + TW!

Matching:

Item number 808382

5 m flexible LED strip with RGBTW LEDs for basic lighting and color effects.

Click on each item number for more information or follow the link on the button below for our Casambi smartlighting **PWM category**.
